

TERRITORY NATURAL RESOURCE MANAGEMENT

Territory Natural Resource Management is an independent not-for-profit organisation.

We work with individuals, groups, industry and government to plan for and support sustainable management of our land, water, soils, plants and animals.

Operating since 2005, we have a dedicated and professional team of staff who work across the Territory from our offices in Darwin, Katherine and Alice Springs.

We are custodians of the NT Integrated Natural Resource Management (INRM) Plan. This community plan identifies and sets the strategic direction for natural resource management in the Territory.

We help to address management priorities identified in the Plan by:

- Planning and coordinating projects and activities
- Funding and supporting on-ground projects
- Bringing people together to share information and knowledge and learn from each other
- Supporting training to increase skills
- Building partnerships and supporting people to work together
- Sourcing funding and assistance for on-ground work
- Sharing success stories and recognising the efforts of Territorians in managing our resources

Membership is open to all entities which have an interest in natural resource management in the NT, and are based in the NT or represent residents of the NT.
