## To the Sea of Prosperity, via north Australian expanded agriculture.

Keith Noble is a PhD candidate in the College of Marine and Environmental Sciences, James Cook University, Townsville Campus. His thesis title is Eyes wide open: Planning a resilient future for North Australian agriculture, come hell or high water. Keith would like to talk to you about your thoughts and experience with agriculture in the north of Australia, particularly if you are a farmer, grazier, or researcher. Keith can be contacted at: keith.noble2@my.jcu.edu.au or 042 718 9160.
