

Sign up for the SUSTAINABLE SOILS SKILLSET TRAINING PROGRAM

DARWIN
23-24 MAY

KATHERINE
26-27 MAY

ALICE SPRINGS
30-31 MAY

You are invited to register your interest for a nationally accredited training program to be held in the Darwin, Katherine and Alice Springs regions.

Starting in May 2022, experienced and skilled soil science professionals from The University of Queensland's UQ Skills will lead face to face and on property practical training, supported with webinars and written course resources.

The Sustainable Soils Skillset includes the following units from the Diploma of Agriculture:

AHCSOL502 Manage soils to enhance sustainability
AHCSOL505 Monitor and manage soils for production
AHCSOL406 Sample soils and interpret results.

Some key benefits of this unique training opportunity are:

- Baseline and follow up soil samples for your property
- Learn how to diagnose and interpret soil sample test results
- Nationally accredited training units from the Diploma of Agriculture
- Experienced and highly skilled teaching staff from The University of Queensland's UQ Skills
- Assistance to determine priorities for improving soil and develop soil amendment strategies for your property.
